Come see this four year young 4 bedroom, 2 1/2 bath center hall traditional colonial in the Forest Park section of Cherry Hill. It is situated on a professionally landscaped over one third acre corner lot with a side turned two car garage. This house has a two story entry foyer and hardwood and ceramic tile flooring and 9 ft. ceilings throughout the first floor. The newer, large gourmet kitchen is beautifully appointed with granite counter tops, all stainless steel appliances, center island, 42" wood cabinets, custom glass backsplash, gas range with self cleaning oven, built-in microwave, stainless steel under mount sink, breakfast bar, pantry, recessed lights, ceramic tile floor, and an imposing breakfast room with a vaulted ceiling and a wall of windows overlooking the back yard. The breakfast room can accommodate a big dining table. The huge family room has a wide open entry off of the kitchen and has a gas fireplace, hardwood floor, and recessed lighting. The dining room and the living room, both with hardwood flooring, are on opposite sides of the entry foyer. The living room can be used instead as a first floor study with double French privacy doors. It is currently being used as a playroom. A half bathroom is on the first floor as well. Upstairs, on the second floor, is a massive master bedroom suite with a sitting area if needed, cathedral ceiling, two enormous walk-in closets, and a newer, generously sized master bathroom. The deluxe en suite master bath has a double sized shower, garden tub, dual sink vanity, and the toilet in its own privacy
